Jefferson City, Sept. 1.—The Bureau of Statistics at Jefferson City has just made some interesting deductions and figures from the data prepared for the "Surplus Shipments Products Map," soon to be is sued from the Labor Commissioner's office. After the matter had been prepared for the printer, Mr. Home went over the entire list and noted the different commodities in which the countles excelled in so far as shipments were concerned. Relow will be found the showing, but it must be home in mind that the items fluctuate, by which is meant that some counties excel in one year in some commodity, while in the year previous some other county may have led in that particular item. The showing is
